

## ZOLLAR HITS PAY HIKES FOR LMC 'BRASS'

CHECKING OUT: Mrs. Helen Ford, executive director of Tri-CAP, checks files in offices that closed yesterday as regional U.S. Office of Economic Op-

portunity announced no more funds, meaning that Mrs. Ford and other Tri-CAP employees are out of jobs. (Staff photo)

### Asking Board To Roll Back 12.3% Boost

#### State Deficit Looms, Senator Warns

State Sen. Charles Zollar said Friday he wants to meet next week with the governing board of Lake Michigan College in an effort to get the board to reduce pay boosts granted LMC's 15 top administrators last Monday.

"I see no justification for the amount of these increases," said Zollar, adding that figures supplied him indicate "the boosts averaged 12.3 per cent. I wouldn't argue against an increase of around 5.2 per cent—that's the commonly ac-

cepted annual inflationary factor. But the LMC trustees handed out two and a half times that much. It was almost twice as much as they gave their teachers. If we allow this 12.3 per cent to stand, every community college in the state will feel it can apply the same rate. It would cost Michigan millions, and we just don't have the money."

#### KEY FISCAL ROLE

Zollar, Benton Harbor Republican, is chairman of the Senate appropriations committee. His committee plays a key role in determining the amount of operating and construction money granted by the Legislature to Michigan's junior colleges and universities.

LMC and other junior colleges in Zollar's home senatorial district, the 22nd, have prospered mightily during the Benton Harborite's tenure on the appropriations committee. LMC has secured millions for construction of a huge new campus not far from the former industrialist's home in rural Benton township. Zollar should have leverage with the LMC board if anyone does.

The 56-year-old senator is still recuperating at home from a mild heart attack suffered last Dec. 28. But in a telephone interview with this newspaper, he said his doctor "has just given me a clean bill of health and I'll be back in Lansing Monday." On Tuesday the Senate, with Democrats and Republicans in equal strength, 19 and 19, will reorganize. The vote of Lt. Gov. James Brickley is expected to give the GOP the edge in picking committee chairmen and memberships. Had Zollar been unable to attend, Democrats would have plucked that plum.

#### WIFE RUNS SHOW

"I've lost 30 pounds," Sen. Zollar laughed Friday. "And now the doctor says all I have to do is stop working those 18-hour days. And, believe me, I will! Babe (Mrs. Zollar) is running the show now, and I'll be lucky if she lets me get in eight hours."

Zollar said he called for figures on the LMC administrators' pay hike after reading an article on the subject in Tuesday's edition of this newspaper. That article reported how the LMC board the night before had approved salary raises averaging slightly over \$2,000 for 14 college administrators. Retroactive to July 1, the new salaries amount to an average increase of approximately 12.5 per cent.

At the same meeting, the trustees boosted the salary of

HEADED FOR JAIL: Maurice Bishop needs a light as he leaves Berrien Circuit court enroute to county jail to begin serving 30-day sentence for 1969 conviction of resisting arrest. Bishop has been leading a boycott against Benton Harbor schools. (Staff photo)

### Bishop Begins Stay In Jail

#### Judge Denies Motion To Delay Sentence

Benton Harbor civil rights militant Maurice Bishop on Friday began serving a 30-day sentence in Berrien county jail for a 1969 resisting arrest conviction.

The order for execution of jail sentence plus \$500 fine and costs came mid-afternoon Friday from Judge Karl F. Zick of Berrien circuit court after he denied Bishop's motion to delay execution of sentence and allow bond for further appeal.

Bishop, 38, of 539 Cass street, Benton Harbor, had been free on \$1,500 appeal bond during a Michigan Court of Appeals review of his jury conviction. A condition of the bond is that it terminated when the appeals court upheld the conviction Thursday. Berrien Prosecutor Ronald Taylor told the judge.

Taylor reported the judge that Bishop's absent counsel, Detroit Atty. Eddie Smith, intends to file a motion for rehearing in the court of appeals and wanted Bishop continued free on bond.

The judge ruled the jurisdiction of further bond rests with

the court of appeals and ordered Bishop to begin serving his jail term. Bishop gets credit for one day already served when he was arrested.

"As far as this court is concerned, the case is over," Judge Zick said.

Bishop unsuccessfully moved to delay jailing to put his affairs in order and to obtain the right to post new appeal bond.

He also told Judge Zick he is seeking to obtain Atty. Milton Henry of Pontiac to press an appeal.

Bishop originally was arrested during a 1968 civil disturbance in which he also was convicted of disorderly conduct.

Bishop's final remarks Friday were:

"What I want to tell these people is keep the boycott (against Benton Harbor schools) going. Don't turn back now. We have went too far."

It was followed by shouts of "right on" from an overflow crowd of some 75 to 80 spectators in the courtroom.

The boycott is aimed mainly at Benton Harbor senior high and junior high. Seventy per cent of the senior high juniors and seniors were in school Friday morning. A higher rate of absenteeism was noted at junior high.

### Mail Strike May End

LONDON (AP) — A compromise settlement of Britain's 11-day nationwide postal strike emerged as a possibility today when the country's top labor leader stepped into the deadlock dispute to get talks started again.

## Fund Cut-Off Sounds Tri-CAP's Death Knell

The Great Lakes Regional Office of Economic Opportunity in Chicago Friday announced that Tri-County Community Action Program definitely will not be re-funded.

Announcement was made by Mrs. Lucille Even, OEO public relations specialist. It sounded like the death knell for Tri-CAP which has conducted the war on poverty since 1965 in Berrien, Cass and Van Buren counties. Tri-CAP's funding of-

cially runs out tomorrow. However, Mrs. Even said the people of the area would still have an opportunity to participate in an OEO program and guidelines to develop one will be provided. Further details will be provided in an OEO press release.

#### NO SURPRISE

The announcement was no surprise to Mrs. Helen Ford, Tri-CAP executive director, who said earlier Friday she was distributing final pay checks to employees in effect dissolving the agency and closing offices.

Still Mrs. Ford, Virgil May, Tri-CAP board president, and Shannon Madison, Tri-CAP planning committee chairman, awaited the news with disappointment.

Madison cited an OEO digest with testimony by Donald Rumsfeld, former OEO director, and Frank Carlucci, acting OEO director. They told a Congressional committee of improved management practices and better services to the poor on a national level.

"That's what we're doing here," said Madison, "and look what is happening to Tri-CAP."

Mrs. Ford commented: "I feel like I'm at a wake." She said a moving van was on its way to Tri-CAP headquarters at 720 East Main street, Benton Harbor, to haul records and

office machines to storage.

"There have been burglaries here before," she explained, "and we want this items in a safe place."

Tri-CAP had sought \$800,000 in U.S. funds to carry on its programs for 1971. But the regional OEO office warned in December that a tentative decision had been made not to refund Tri-CAP because of "ineffective operations" and failure to reach the poor.

Support for Tri-CAP and Mrs. Ford's leadership came from many civic, social and religious organizations. A delegation of 35 persons pleaded Tri-CAP's case at an OEO hearing Jan. 7. Regional Director Wendell Verduin said he was impressed but reminded the group of Tri-CAP's deficiencies as contained in an evaluation report.

Mrs. Ford became Tri-CAP executive director last March at a salary of \$13,700. She came from Chicago after heading a staff in school and college relations at University of Illinois. Previous employment was with Illinois Bell as a public relations assistant.

She said yesterday she plans to remain in the Twin Cities at least through June until a son graduates from Lake Michigan Catholic high school. Mrs. Ford has another son in college and a daughter in high school. She

and her husband, Charles live in St. Joseph.

As for other Tri-CAP employees? "It definitely means that many will be going back on welfare rolls," she said. The staff numbered about 150.

Tri-CAP has had a tempestuous six-year history during which it has received \$2,218,839 in federal anti-poverty funds.

Paul S. Allen, former executive director of Benton Harbor and Benton township housing

(See back page, sec. 1, col. 7)

### Missing Bus Just Taking A Snooze

Twin City Motor Transit lost a 16-passenger bus for almost five hours Friday.

Joseph Mammina, president of the bus line, told Benton Harbor police that the bus and driver were long overdue at the line's garage, 398 Territorial road. Police said Mammina reported the bus was to return to the station by 9:30 a.m. after completing an early run.

It was then 1:25 p.m. and no driver, no bus, Mammina said. He called police again at 2 p.m. to report bus and driver had been located. Mammina said driver Robert Daniel, of 166 Birdie street, Benton township, went home for a brief rest after the morning run, fell asleep and didn't wake up until afternoon.

## ALLEGAN, CASS, VAN BUREN

### Stout Hearts Battling Blizzard

By DELL GAUT  
Staff Writer

Courage has become commonplace as lawmen, emergency crews, snow plow drivers, and volunteers on snowmobiles continue to battle a blizzard which blasted to life again last night for the sixth straight day.

Winds measured up to 55 miles an hour jammed inland secondary roads, Cass, Allegan and Van Buren counties with drifts up to six feet.

Hundreds of cars have been isolated on back roads, workmen were stranded in their plants, at least two women in labor were assisted to hospitals, and scores of minor accidents were reported.

Cass county deputies reported rescuing 15 persons from stalled autos with a four-wheel-drive emergency vehicle. At 9:30 p.m. an unidentified woman was taken from a stalled car and taken to Lee Memorial hospital, Dowagiac,

from where she was later transferred to a Niles hospital.

Van Buren deputies were on a similar run at about the same time, this time to take a woman from Decatur to Lakeview hospital, Paw Paw, as she reportedly began labor.

While on another rescue attempt, Cass Sheriff Sgt. Howard Sheline was flagged down by a stalled motorist who reported that his wife, in the car, was suffering a gall bladder attack. Sheline dragged the stalled car two miles to Dowagiac city limits, where city police escorted it to Lee Memorial hospital.

At one time, deputies report, the four-wheel-drive emergency vehicle had five women inside, all rescued from stalled autos.

A charter bus carrying 40 members of a ski club from Chicago slid off I-196 at the 130th street overpass near Douglas, and the passengers had to be put up at a Holland motel to wait out the storm.

In Allegan county, deputies used two snowmobiles and two

snow plows teamed up to remove John Kelly, age unknown, from his home at Otsego and transported him to Pipp hospital, Plainwell, when he became ill unexpectedly. He was listed in good condition today.

Allegan deputies reported that they investigated 25 accidents over night, mostly of the property damage variety.

At the Bangor Food Products company, on 61st street, Allegan county, workers had to spend the night at the plant when they couldn't get their cars out of the parking lot. They were evacuated this morning by an emergency crew.

Harry Bush, superintendent of public works at Paw Paw and an official weather observer, said winds there measured 46 miles an hour, with a low temperature of 8 degrees last night. He said four more inches of snow fell in that area overnight, bringing the total since Nov. 23 to 67½ inches.

State police posts at Niles, South Haven and New Buffalo

The Errant Label

Every Commissioner of Internal Revenue since the Truman Administration has advertised his 1040 package as an aid to assistant rather than confuse the average American who prefers to fight the annual battle in computing his federal income tax.

Randolph W. Thrower, the incumbent, is no exception. His opening paragraph on the 1970 packet starts out in these words:

"The 1970 Federal tax forms use the same approach as last year's but we have tried to make improvements which taxpayers felt would be helpful. These include the printing of the instructions separately, the use of the back of Form 1040 for the tax computation, and the printing of some of the schedules back to back."

Coco Helped Women

Women have often been victimized by the people who design their clothes. Some styles are so unfattering to the majority of women that there must be some basis for the widespread suspicion they are designed by men who hate women.

How refreshing, in that setting, was Gabrielle Coco Chanel, the Paris designer and perfume maker who died after nearly six decades of success in the fashion world. She freed women from many of the "ludicrous trimmings and fuzzy bits and pieces" that dominated dressmaking when she entered the field.

Simple elegance was her style, and she enhanced the looks of multitudes of modern women with her designs which set fashion trends.

She never forgot, in the money making pressure of the fashion business, that her job was to make women look good and feel comfortable.

That may not be the most important work in the world, but something that affects the looks and the outlook of millions of women cannot be discounted as unimportant.

Coco, in her way, made a real contribution.

Relies Of History

It is difficult to assess in the context of a time period now 30 years dead the importance of the British cabinet records of 1940 which have been stripped of their secrecy after three decades.

What they purport to show is that high British officials, including Prime Minister Neville Chamberlain, distrusted negotiations conducted by President Franklin D. Roosevelt through his Sec. of State, Sumner Welles, which might have led to peace agreements with Germany.

According to the records, Chamberlain told his cabinet on March 13, 1940, that he thought Roosevelt would "make some attempt to bring the war to an end even if that attempt should be embarrassing to us." The Prime Minister was referring to speculation that Welles was looking into the possibility of a peace overture to Germany which would have permitted Hitler to retain his power.

Some of the conversations included in the cabinet records are far stronger, including the observation by Sir Robert Vansittart, chief diplomatic adviser to the Foreign Office, that "It is now pretty clear as the Prime Minister says in this minute that President Roosevelt is ready to play a dirty trick on the world and risk the ultimate destruction of the Western democracies in order to secure the re-election of a Democratic candidate in the United States."

Such documents provide interesting historical conjecture, but any value they may have had in influencing world affairs was lost when they were classified 30 years ago.

DR. COLEMAN

.. And Speaking Of Your Health

A spectacularly brilliant device has just been created to help the blind read without first having to translate printed matter into Braille.

At Stanford University, Dr. J. G. Linvill and his two colleagues, Dr. P. J. Salsbury and Dr. J. B. Heindl, have created this instrument known as the Optacon.

Built with more than 100 phototransistors, the new instrument reads printed matter and sends the message to the sensitive fingers of the blind person.

With a moderate amount of training, he can be taught to read in this manner, a method far less complicated than reading in Braille.

Already a number of students trained to use the instrument have shown remarkable benefits in their college-training program.

There are few more distressing complaints than the loss of taste. All food becomes unpalatable, uninteresting, and eating loses the fun of anticipation. At the National Heart and Lung Institute, Dr. Robert I. Henkin has been studying the causes and the possible cure of the loss of taste and its ally, the loss of smell.

Dr. Henkin's basic research is already paying dividends. He now knows that certain

WILLIAM RITT

You're Telling Me!

Today is the 89th anniversary of the birth of the late President Franklin D. Roosevelt. Yesterday was the anniversary of the birth of President William McKinley—born back in 1843. Guess that puts this month on an even keel with February, with its Washington and Lincoln.

The man at the next desk says he thinks the dandelion should be America's national flower because in the summer you see more of them than any other.

Maybe the reason so many TV show sponsors have singing commercials is that they're just trying to keep in tune with the times.

HENRY CATHCART

Inside Washington

WASHINGTON — Charleston, S.C. lost more than a congressman with the death of Rep. L. Mendel Rivers, the chairman of the House Armed Services Committee.

Rivers liked to boast that he was personally responsible for bringing 90 per cent of Charleston's industry to that city. While his claim may have been somewhat high, few dared to question his campaign slogan, "Rivers Delivers."

During his tenure on the Armed Services Committee the Charleston Navy Shipyard became one of the most active in the nation. A Polaris submarine base was constructed, as was a naval weapons station. For good measure the Navy added two hospitals. The Air Force built an air base. The Marines constructed an air station. The

Army constructed a supply depot.

Leading government contractors who depend on military appropriations showed their gratitude to Rivers by locating facilities in his district. McDonnell, Douglas, Lockheed, Avco and General Electric were among the many who located plants there.

All this once led former Rep. Carl Vinson, D-Ga., himself a long-time power and chairman of the Armed Services Committee, to observe: "You put anything else down in your district, Mendel, and it's going to sink into the Atlantic Ocean."

It is probably stretching only a good point to say, as one congressman did at Rivers' passing, that "a lot of Charleston died when Mendel's heart stopped beating."

RELIGION TODAY

Salvation Army Faced With Mutiny

By REV. LESTER KINSOLVING  
SAN FRANCISCO — Serious trouble—which may very well lead to something of an international mutiny—is apparent within the renowned and widely beloved Salvation Army.

This column has learned, for instance of an underground organization of the Army's officers who are striving to correct what they claim are badly needed reforms of the organization's rigid structure.

Mrs. (Captain) Roscoe Hines of Huntington, West Virginia, a veteran of 20 years Army service, is the secretary of Concerned Officers Fellowship (COF) which has quietly been incorporated in Atlanta.

"My parents had 10 children, eight of who became Salvation Army officers," Kinsolving noted Mrs. Hines, whose husband was also a captain. "But we were 'farewelled'—that means fired—on charges that we bought a Pontiac Catalina. It's all right for divisional commanders to have a car, but not for captains."

"Nepotism and overorganization are rampant in the Army," charges Mrs. Hines. "We do not disclose either the names of our other COF officers or the membership list—which numbers in three digits (out of 3,889 officers in the U.S.)—because they could suffer severe retaliation."

Mrs. Hines' contention seems substantial in view of the following news reports:

● In Paris: The Salvation Army's national commander (Commissioner) Gilbert Abadie transferred six young officers out of the country because they publicly protested his disrupting a performance of the musical "Hair"—by denouncing the cast with a bullhorn. (Replied Abadie: "We are an army, not a democracy. We believe in discipline and it is I who give the orders.")

● In Atlanta: Mrs. (Captain) Billie McClure was ousted from the Army to which she has belonged for 34 years—since 1937—as an officer. She had filed charges of financial discrimination against women officers, with the U.S. Equal Employment Opportunity Commission (EEOC). After news of this broke in the Atlanta Constitution and Journal, she was cashiered. She has since filed a lawsuit asking for reinstatement and back pay. Commented the EEOC: "The Army's consistent response has been the alternative that she accept the disparity (in women officers' remuneration) or that she resign."

The Army is simply a paternalistic organization, which is rarely questioned by its members, who accept its rule docilely and are expected to do so."

Mrs. McClure's resignation

JAY BECKER

Contract Bridge

Opening lead—king of diamonds.

Every so often a declarer finds himself struggling in a seemingly hopeless contract. This situation may arise as a result of overbidding, misbidding or any one of a dozen other good or bad reasons.

But whatever the cause, declarer must strive to salvage the situation. A contract that appears impossible to negotiate can sometimes be brought to fruition by applying just that extra little ounce of effort that marks the difference between success and failure.

Take this hand where South is in four hearts. Looking at only the North-South cards, it would seem that declarer must lose two diamonds, at least one trump, and at least one club. However, despite this prognosis, South can make the contract if he pays very strict attention to the job at hand.

West cashes the king of diamonds, then plays the ten to East's ace. East returns a spade, won by South with the ace.

Declarer realizes he must lose at least one trump trick, come what may, so he devotes all his energy to avoiding a club loser.

Since he has a natural club loser even if West is granted the king, South must seek a method of play that will cause this seemingly inevitable club loser to vanish from sight.

Declarer can accomplish the feat by finessing the queen of clubs at trick four, next playing a spade to the king, and continuing with a club to the ace followed by a ruff of dummy's remaining spade.

When declarer now plays the ace and another trump, West wins and must return a spade or a diamond. This permits South to ruff in dummy as he discards the nine of clubs, and in that way he brings home the "impossible" contract.

BENNET CERF

Try And Stop Me

Joyce Brothers tells about a 4-year-old lass, due to inherit a fortune from her parents in time, who climbed into bed one evening without saying her prayers. Challenged, she explained carefully, "There happens to be some nights, mummy, when I don't want anything."

A lady who had about resigned herself to being a spinster all her life, finally coaxed a very eligible bachelor to the point of proposing. Fearful that he would discover before the wedding actually took place that she was decidedly hard of hearing, she bribed her young nephew to hide in the woods, ready at a prearranged signal to emit faint but melodious bird calls. She for her part would pretend to hear them, thus julling to rest any apprehensions her "boy friend" may have nurtured.

The plan progressed promisingly. With her beau walking

## Donations Net \$35,000 For 4-H Foundation

### Fund Drive Will Officially Start Monday

BY ALAN AREND  
Staff Writer

Donations of more than \$35,000 have been received to date by the Berrien County 4-H Foundation, according to Bruce Johnson, Twin Cities fund drive

chairman for the foundation. He noted that receiving this amount of financial backing prior to the official starting date of the fund drive Monday indicates the public interest in 4-H objectives.

The latest donation of \$5,000 was given in behalf of the First National Bank of Watervliet by Robert Reinking, bank president.

The 4-H fund drive will be a one-time solicitation with a county-wide goal of \$225,000. The foundation is an investment trust fund with earnings from the fund drive to be used entirely for the direct support of the Berrien County 4-H youth program. All contributions are tax deductible.

The fund will enable 4-H to expand its youth education programs and to reach out and make 4-H clubs available to more boys and girls living in city, suburban and rural areas.

The fund will also provide for an expanded recognition program for members and leaders. There are now over 2,100 boys and girls active in 60 local clubs, led by over 600 adult volunteer leaders in almost every community in Berrien County.

#### OPEN TO ALL

In addition, there are over 1,000 boys and girls enrolled in the county 4-H school conservation-education program. Four-H activities are open to children of all races and creeds who wish to

engage in a variety of youth programs.

James Colman, Watervliet, president of the foundation, announced today that he has appointed two additional Twin City fund drive division chairmen. For the construction industry, William Awodey, an architect of the firm Niephaus, Awodey and Spencer, St. Joseph, was appointed, and for the retail division Mrs. Eunice Hughes, commercial manager of radio station WSJM, St. Joseph. There are now 17 division chairmen who will be contacting individuals and business firms on behalf of the 4-H foundation through the duration of this financial drive, expected to end on April 1.

Colman also revealed the appointment of two additional market area drive chairmen. William Niezgodski will coordinate the Niles area and Mrs. Jack Long will serve in the Watervliet-Coloma area.

"People who feel that an

investment in children today will help make better citizens and communities tomorrow may make their donations directly to the Berrien County 4-H Foundation, County Courthouse, St. Joseph," Larry Cushman, area 4-H agent said.

### Not Ready To Merge Police Units

#### Coloma Township Official Tells Why

COLOMA — A Coloma Township trustee says he's not in favor of moving the township police force to the Coloma city police station as was informally discussed recently.

Township trustee John Miller's comments follow a suggestion made in December by a Coloma commissioner to have the township police force use the city police station for dispatching both city and township cars, and for the use of the city jail cell rent free.

Miller said yesterday, "I can't see any benefit to us." Miller said if the jail cell is used it could create several problems for the departments.

LONG HARD LOOK  
Miller, who heads the township police committee, said he feels the suggestion deserves a long hard look before anything official takes place.

Miller, speaking only as board member and not for the township board as a whole, said he will confer with Coloma Township Supervisor Roger Carter soon in order to reach a decision that would benefit both departments.

Miller said he has been talking with other area police chiefs who have a jail cell at their station in order to discover the feasibility of using such a setup.

Coloma police cannot use their jail cell unless someone is in the building, and it was suggested that if dispatchers presently working at the township hall moved to the city station the cell could then be utilized.

\$5,000 TO 4-H DRIVE: Robert Reinking (left), president of the First National Bank of Watervliet presents a \$5,000 check to Watervliet Atty. James Colman, president of the Berrien County 4-H Foundation. The donation is a major contribution to foundation's fund drive which has set a county-wide goal of \$225,000. (Staff photo)

## Black Pastor Has Questions For Militant

### Who Rides Bus? -- Who Drives Cadillac?

In recent letters to this newspaper, the Rev. C. Wesley Gordon, pastor of the Benton Harbor Union Memorial AME church has asked for peace in the community, a reconciliation of blacks and whites and a mutual effort toward solution of problems.

His motives were questioned Thursday by civil rights militant Maurice Bishop, a leader of a boycott against Benton Harbor schools. Bishop commented on Rev. Gordon in an interview over WSJM in which he implied that the Court of Appeals ruling upholding his conviction for resisting arrest in 1969 was prompted by his current boycott effort.

The Rev. Gordon replies in the following letter:

Editor,  
The News-Palladium:  
"I would like the privilege of replying to Mr. Maurice Bishop's comments about me on one of the local radio stations. My reply shall be in the way of several questions which I wish he would answer because I think the public should have the answers to my questions to weigh his credibility. I think his answers should be documented for the benefit of many of us who share some doubts.

I am fully aware that Mr. Bishop and I are not really ready to talk with one another because I know that out-talking, out-shouting, and smart talk will not answer these questions satisfactorily. I think the community needs the answers to these and other questions.

Where was Maurice Bishop less than five years ago? What people's hair was he set up to cut? If he was willing to cut black people's hair, why was he in St. Joseph?

Who does he rent to and under what conditions does he rent to black people?

Where are his credentials? How did he get hold of SCLC? When did he receive his charter? Why was the national office of SCLC reluctant to come into Benton Harbor and investigate the set up of our local SCLC, or his representation? When and how was he elected president of the local SCLC? Who has received an accounting of the finances of the organization? Who handles the money? How?

What is the real status of

REV. C. WESLEY GORDON

national SCLC? Is there an internal struggle going on?

When did Mr. Bishop become a Christian since he leads a supposedly Christian organization? When did he join a local congregation? Which one? Is he a regular communicant of any church today?

Will our students benefit from the boycott? When will they be able to make up their work?

WHAT DOES MR. BISHOP REALLY WANT?

Why is it necessary for Mr. Bishop and his group to allegedly threaten so many persons in this community who do not share his point of view? Didn't even the students reject his leadership at first because they remembered the barber-shop incident? So who does he really represent? Does he represent a majority of the black people of this community?

When we note this kind of alleged activity, we wonder who is behind some of the vandalism in certain places? Did somebody see somebody let a group out to break some windows but have not come forward to report it?

Is he encouraging vandalism or better education?

Have some of these "poor people" noticed that while they are walking or riding the bus that the boss man is riding a fairly new Cadillac?

I have been black all my life. My father was a pastor of black people. Black people pay my salary each week. I must account to them. I am not saying that I am perfect or haven't made mistakes but I have lived and worked with black people most of my life.

The African Methodist Episcopal Church has been in the forefront of the black man's struggle against segregation and discrimination even before the Emancipation Proclamation. It is a living symbol of the Black man's determination to be a free first class Christian citizen—both in responsibility and right.

Through its leadership Black people have joined hands around the world to make a better life for themselves and their children.

Through their churches these Black people were mobilized, organized, Christianized, and encouraged to get an education or some training to the point where they were not, and are not, willing to accept the indignities of segregation or discrimination. Nor are we willing to throw all of the effort of our forefathers away.

Black people needed bold (See back page, sec. 1, col. 1)

## BH Vocalists Cut Record

### 'Gems' Hoping To Obtain Bigtime Bookings

After singing professionally for about a year, Miss Carolyn Wysinger, 21, of 939 Bishop avenue, Benton Harbor, hopes her first vocal recording will provide impetus for an expanded career.

Miss Wysinger is the daughter of Mr. and Mrs. James Wysinger and is a 1969 graduate of Benton Harbor high school.

She said the job of recording the initial record was completed last Thursday in the Chicago studio of Chess records.

#### 'HOT ROCK'

Music on the record is termed "hot rock" by Miss Wysinger. She said the A-side song is, "Girls Can Do It," while the B-side song is called, "Ain't That Loving Me." Lloyd Webber of Chess records is listed as composer of the songs. The record is to be released

soon, said Miss Wysinger.

Miss Wysinger said she has been the lead singer in a trio, also comprised of Patti Bunting and Connie Kirkwood of Benton Harbor, who provide background music. She said Chess records named her group the Gems and made the recording after an audition.

Previously said Miss Wysinger, she has appeared only in Twin Cities area establishments, but would like to move to bigger engagements, perhaps in Chicago.

## Couple Gets \$16,500 From I&M

A trio of commissioners in Berrien probate court awarded a Berrien township farm couple \$16,500 damages for the right of an electric utility to string a 345,000-volt power line across their land.

The award, following three days of trial and about a hour and 45 minutes of deliberation, goes from Indiana & Michigan Electric Co. to Mr. and Mrs. Peter Rudell, owners and residents of a fruit farm at Range Line road and Rockey road.

Appraisers estimated damages from \$4,250 up to \$30,600 and commissioners deliberated between these limits.

The trial was one in a series by I&M seeking the right to cross private property with a 345,000-volt power line from the Donaki C. Cook nuclear generating plant near Bridgman south into Indiana.

I&M also won the right to install one 165-foot tall steel support tower on the Rudell farm.

Trial was held before visiting Van Buren Probate Judge Meyer Warshawsky and pitted St. Joseph Atty. Carl Burdick, representing I&M, against Niles Atty. William S. White.

## Drug Talks To Be Aired

WSJM and WSJM-FM, St. Joseph, will present a series of six programs concerning drug culture, youth and narcotics abuse. Program Director D. Charles Hoffman said the series will be aired Monday through Saturday next week at 7 p.m.

The 15-minute programs were written and copyrighted by Jory Sherman. Hoffman said the series deals with the phases of drug abuse and some of the reasons why persons get "hooked."

## OPEN FEB. 13 Three Banks Announce New Holiday Schedule

Three Twin City area banks will open their doors the morning of Saturday, Feb. 13, to relieve the inconvenience of two bank holidays set for mid-February.

All offices of Inter-City bank and Farmers and Merchants National bank will be open 9 a.m. to noon on Feb. 13. Offices of Peoples State bank will be open 9:30 until noon. The banks normally are closed on Saturdays.

By law, banks must close on Feb. 12, Lincoln's birthday and Feb. 15, Washington's birthday.

Traditionally, Washington's birthday has fallen on Feb. 22. But a new law, effective for the first time this year, schedules the holiday for the third Monday in the month.

The banks are setting the Saturday hours for Feb. 13 only to assist those customers for whom the closely spaced holidays will be inconvenient.

## Globensky Won't Run Again In SJ

Atty. Richard J. Globensky has decided not to seek re-election to the St. Joseph city commission.

This decision by the Benton Harbor attorney leaves the way clear for Joseph Hanley, St. Joseph industrialist, to stand election unopposed for the commission seat in the April 5 election.

"I am pleased to see a competent person has come forward to the position and I'm confident he'll do a good job," Globensky said in telling this newspaper of his decision.

Globensky was elected to the commission in 1969 to fill the two-year unexpired term vacated by Richard Plassman, who resigned when he moved from the area.

"I went for a position that was open then, not anticipating a long continuation there," Globensky said. "I felt there was a void to be filled and that now appears to be covered. I did what I had in mind."

The St. Joseph city commission is set Monday night to declare Hanley automatically nominated as the sole candidate for the three-year term. It is the only seat open on the city commission this year. Filing deadline for candidates was last Monday.

Hanley, 48, is president of Vail Rubber Works, Inc., of St. Joseph. He lives at 524 Granada avenue with his wife, Ruth, and five children.

RICHARD J. GLOBENSKY

Globensky, his wife Eileen and their six children live at 474 Ridgeway. His law offices are located at 169 East Main street, Benton Harbor.

## Lewis Replies To Charge

Dr. Mark E. Lewis, Benton Harbor superintendent, said today that the district has acknowledged it has educational problems and has many things going to strengthen the quality of education.

Lewis cited building a staff oriented to the needs of the district, a much greater emphasis on reading and special education, a new science program and curriculum coordinating council among others.

The superintendent replied to a statement in this newspaper Friday by Paul Freudenberg, spokesman for West Fairplain residents petitioning to leave the district. Freudenberg said, "It's unfortunate that our school administration avoids the educational issue and concentrates on racial problems. Our principal concern is a good education for our children in conditions of safety without the element of fear."

Lewis explained the administration and board also acknowledge other problems of a more subtle nature. He said assistance of the State Department of Education is being sought.

The district's problems would be compounded if various areas transferred, he noted.

#### INITIATE 25

## Last Enrollment Set At Old Moose Home

Benton Harbor Moose Lodge 1570 Sunday will hold its last enrollment of new members in the old Moose home at 142 West Wall street, Benton Harbor.

The lodge will soon move into new headquarters at 501 Zollar road on the St. Joseph river, Benton township. The old lodge is in Benton Harbor's urban renewal program.

Initiation for 25 candidates will be at 4 p.m. followed by a potluck dinner, dancing and entertainment. Benton Harbor's ritual team will perform the ceremony, according to Arthur Herman, governor, and Charley Elter, secretary.

DECADE OF SERVICE: Don Wickham (left) one of the founders of Seinan Judo club in St. Joseph, was honored at surprise presentation last night in the club's quarters, in the 505 Building, with testimonial, black belt and plaque. Letters from St. Joseph Mayor W. H. (Duke) Ehrenberg, Sheriff Nick Jewell, Benton Township Police Chief Joe Sieber and Lake Michigan College President James Lehman attested to Wickham's judo teaching ability. Plaque is being read by president Trez Wigfall. (Staff photo)

## Bears End Road Drought At Portage Central

By JAKE SHUBINSKI  
Staff Sports Writer

PORTAGE—Yes, the St. Joseph Bears can win on the road. Coach George Gaumer's team won its first travel game in four trips here Friday night with an 81-67 Big Six verdict over winless Portage Central.

"But it wasn't one of our better games," declared Gaumer after watching his Bears roll to 27 points in the first period—the team's best eight minute production of the season—then fell apart at the seams during the second period with nine turnovers.

The Bears lost the ball only once in the first period and tallied seven straight points before the Mustangs got on the board.

During the first eight minutes, the Bears hit eight of 19 shots and connected on free throws without a miss, including nine straight by Paeky Ryan. At one point midway of the quarter, the Mustangs held a 4-3 field goal edge.

Before the half was over, Gaumer had used 10 men. "I think the unlimited substitution might have caused some of the errors," Gaumer declared.

But despite the mistakes, the Bears enjoyed a 17-point lead with two minutes left in the half after which the Mustangs chopped the margin to 12 at halftime.

The Mustangs, who hit only seven of 22 shots in the third quarter, were able to cut St. Joseph's lead to 56-46 with the period four minutes old.

The Bears, with the help of a couple of rebound taps of

missed free throws by Scott Marutz and Mike Knuth, scored the next four points and held a 60-46 lead at the end of three quarters and were never in danger thereafter.

"When you don't score, you can't threaten," said Portage coach Ed Hager who tried many combinations to get his Mustangs back on the scoring track.

Nothing worked, however, and the Mustangs went almost five minutes before Dave Posthumus got a basket.

The fourth quarter resulted in a run-and-shot duel as both teams gave up running offensive patterns and fired away. Gaumer started clearing his bench with six minutes left in the game and the subs were guilty of some ragged play that enabled the Mustangs to match the Bears in scoring thanks to

13 free throws in 18 attempts. "Our play throughout the game was very erratic, very spotty," declared Gaumer.

Neither coach had too much praise for their team's offensive performances despite a total of 148 points in the game.

"When we ran our pattern, we looked pretty good," said Gaumer. "And when we didn't run it, we looked very bad."

The Mustangs used a "new" offensive style against the Bears that resulted in a pair of steals by Ryan and one by Scott

Marutz during the Bears' 45-point first half.

When asked about the change, Hager commented, "I didn't see much offense out there at all tonight."

The Bears, who hit 29 of 61 shots for a 47.5 average, had four players score in double figures. Ryan finished with 25, including 11 in the first period and eight in the finale.

Marutz, with outcourt shooting and rebound taps, totaled 17 and Mike Knuth and John Gorton each hit for 10. Gorton got three of the Bears' seven second period goals and Knuth had the same figures in the third quarter.

Hager's complaint about the Mustangs all season has been, "we don't put the ball through the net with any consistency."

That was the story for the Mustangs in this game, too, as they hit only 22 of 79 shots for a 27.8 percentage.

Only John Lebiecki and Dave Posthumus reached double figures for the Mustangs, scoring 17 points each.

It was another bad night for the Bears on the boards as they were out rebounded for the eighth time this season, 50-42. Marutz was tops for the Bears with 14 and Gorton took down 11. Lebiecki had 13 for the Mustangs.

The victory leaves the Bears with a 7-3 overall and a 4-2 conference mark to take into next Friday's home game with Niles. The defeat was the 10th straight for the Mustangs, six of which have come in league play.

Coach Lloyd MacTavish's

jayvees ran their record to 8-2 with a 76-61 victory in the opener after trailing 36-35 at the half. Mark Schnese led the Bears with 28 points and Tom Scheffler contributed 23.

## THE WORLD OF Sports

## Lakeshore 'Snows' Berrien

\*\*\*  
Lanky Lancers  
Win 81-66

By JOHN VANDEN HEIDE  
Staff Sports Writer

Too many lanky Lakeshore Lancers snowed under the spunky Shamrocks from Berrien Springs Friday night.

Using a height advantage of almost four inches per man coach Russ Olin's squad buried Berrien 60 to 40 in rebounding for an 81-66 Blossomland victory in the Lakeshore gym.

"Boards won the game for us," confirmed Olin. "I think they out hustled us out there tonight."

The Shamrocks, losers of seven straight, certainly were tenacious. Every time Lakeshore would let up, Berrien battled back into contention.

During a lapse in the Lakeshore scoring storm at the start of the fourth period, when the Lancers missed their first 11 shots, the Shamrocks pulled within seven points at 68-59 with 3:45 left in the game.

But Lakeshore got back in the groove and blew in 15 points in the final 3½ minutes of action to wrap up its sixth consecutive triumph.

Season scoring leader Chris Knapp again set the pace with 24 points and a tremendous 30 rebounds. No rebounding records are kept at Lakeshore, but Olin couldn't recall a previous Lancer effort to match the total of the 6-4½ senior forward.

After some off-target shooting in the first half which netted just six points, Knapp found the range with a 15 point third quarter. "He made up for it," commented Olin on Knapp's first half. "You knew he was going to."

Gary Gardner added 19 points to the Lakeshore cause, while Dave Radtke and Rich Plangger chipped in with 15 and 10, respectively. Radtke also contributed 11 rebounds, while Plangger pulled off 10.

Berrien Springs, which shot well in the second half, got 16-point efforts from juniors John Mock and Phil Ewall.

"We never shot like that all year," noted Shamrock coach Connie Stover on Berrien's 48 per cent shooting in the second half. "We finally got some shooting...now if we could only rebound we would win some games."

"I'm proud of them little rascals, though. At least they came back against a good team. The kids got a little determined, and it was the best man-to-man we've played in a long time."

Berrien has been bombed 93-75 by Coloma in its previous outing, but bounced back Friday night to hurt Lakeshore's pregame defensive mark of 56.0. The Shamrocks were also above their season scoring average of 59.9.

Berrien jumped off to a 5-2 lead as Lakeshore made four turnovers and missed five straight field goal attempts after an opening basket by Knapp. But Lakeshore then recovered and went ahead for good at 8-7 at the 2:17 mark on a basket by Dave Arter.

Lakeshore led 15-9 after the first quarter, but after Radtke and Plangger each picked up their third fouls, the advantage slipped to 19-17 about midway through the second period.

Gardner took personal command of the situation at that point and scored 12 of Lakeshore's final 15 points over the final four minutes of the half for a 37-27 Lancer lead at the intermission.

The third period developed into a real shoot out, paced by Knapp's 15-point barrage. Berrien Springs scored the first

four points of the period, but Lakeshore then rattled off 13 without a return for its biggest lead of the night at 50-31.

Berrien then joined the scoring parade and the squads combined for 31 points over the final four minutes of the period, with the Lancers emerging with a 64-49 lead.

The Shamrocks then posted their only scoring advantage of the night with an 18-17 point edge in the fourth quarter.

Berrien Springs finished with a 36 per cent field goal average (28 of 37) while Lakeshore compiled a 40 per cent mark (32 of 80). At the free throw lines the Shamrocks swished 14 of 20 (70 per cent) and the Lancers 17 of 26 (65 per cent).

Lakeshore is now 5-1 in the Blossomland and 8-2 overall. Berrien Springs is 0-6 in the conference and 1-8 on the season.

Lakeshore's junior varsity also won Friday night's preliminary 78-40. Charlie Shafer netted 17 and Steve Palmer 13 and 10, respectively, for the little Lancers. Roger Rusch and Tom Porter had nine apiece for Berrien Springs.

## DeLeeuw Stars As Lakers Cruise Past Galien, 71-52

By BILL MOORE  
Staff Sports Writer

Dave DeLeeuw wheeled and dealt Friday night and when it was all over he had his best game of the year and Lake Michigan Catholic had a 71-52 victory over Galien.

The Lakers' 6-5 senior scored 23 points and picked off 21 rebounds as the Lakers used a lopsided second quarter for their fourth straight win over the Gaels.

"DeLeeuw is rapidly becoming one of the finest centers in the league," said Laker coach Sam Skarich. "He's picking up some good moves and is learning how to go for the basket. He played a really fine game tonight."

Even though DeLeeuw was the dominate figure, there were several other Lakers who caused the Gaels a lot of problems. Butch Watts scored 10 points and had eight rebounds in his first starting role at forward.

Rick Mayer, who lost the starting berth, came off the bench early in the first quarter and played his best game of the year with 13 points and 11 rebounds. Nick Bazan, the Lakers' sixth man, put on a first

half ball stealing show that eventually knocked Galien out of the game.

"We got a great effort from the kids," said Skarich. "The kids did a tremendous job of getting things together. They just didn't let things affect them."

The "thing" Skarich referred to was a twisted ankle that knocked John Brinnall—the team's leading scorer—out of the game with only two minutes played. The scoring ace sat out the remaining first half but saw some limited play the second. He ended with four points.

"The ankle isn't swollen too bad," said Skarich, "but it seems to be giving him a lot of pain. If it's still hurting him tomorrow he won't play against Bridgman. We're just going to have to wait and see." The Lakers play at Bridgman tonight.

On the other side of the court, Galien coach Jim Anderson said that rebounding cost them the game.

"The only kids we had hustling on the boards were the short ones. We just weren't playing with them. We lost by 20 points and that's about the way we played."

Even though the Lakers held a 19-point difference in the scoring they had only a 43.2 (29 of 67) to 38.1 (21 of 55) edge in field goal percentages.

"That really reflects on our defense," said Skarich. "We've really been working hard on it and it shows in games like this."

Fourteen of that 19-point difference came in the second quarter when the Lakers cut off the Gaels with three field goals and eight points, while scoring 22.

Lake Michigan used six free

### K-Central Rally Beats Ann Arbor

KALAMAZOO (AP) — Kalamazoo used a man-to-man defense to overcome an eight-point deficit at halftime and go on to earn a 74-68 victory over Ann Arbor Pioneer.

Rick Evans of Kalamazoo Central was high scorer in the game with 21 points. Kalamazoo is now 12-1 in the season.

Ypsilanti Rumps

YPSILANTI (AP) — Ypsilanti, second-ranked in Class A, ran by Dearborn Friday, 83-68, with Ypsilanti's Ron Gardner taking high-scoring honors with 31 points.

Dearborn's John Renco had 28 points and Ypsilanti's Steve Rhoads had 21. It was Ypsilanti's 11th straight win in an 11-0 season.

throws to hold an 18-16 edge at the end of the first quarter. It upped the lead to 24-16 with 5:45 left in the half. Then DeLeeuw went on a scoring spree with 10 straight Laker points which made the score 42-24 with two minutes left. Watts scored twice and Bazan once to give the Lakers a 40-24 halftime margin.

The two teams matched 12-point third quarters making the score 52-36. Lake Michigan held a 19-16 edge the final period for the 71-52 ending.

"There's no doubt we are improving," said Skarich. "We've won three of our last four. And that one loss was to South Bend St. Joseph."

The win gives the Lakers a 6-3 conference mark and a 6-4 overall record. Galien dropped to 3-6 in Red Arrow play and 4-8 for the year.

Lake Michigan's jayvees upped their record to 8-2 with a 64-58 win over the little Gaels. Doug Roemer led the Lakers with 28. Jim Devereaux added 10. John Heller paced Galien with 23.

## Red-Hot Niles Buries Norrix

NILES — The undefeated Niles Vikings warmed up for next week's showdown at St. Joseph by gunning down hapless Kalamazoo Loy Norrix 94-50 with a torrid shooting performance here Friday night.

Paced by twin terrorists Craig Riley and Louis Garner, coach Dean Adams' Vikings scored the nets with 61 per cent accuracy to transform the Big Six conference game into an instant rout.

It was the 11th straight victory this season for the Vikings, who were ranked eighth in this week's Class A poll, and preserves their two-game lead in conference play with an unblemished 6-0 slate.

Garner and Riley each tossed in 20 points during abbreviated

stays on the court and they combined their talents for 34 points in the first half as the Vikings raced out to a 49-19 lead.

Garner scored 14 points in the first quarter and 18 in the opening half while Riley tallied eight in each of the first two periods. Center John James added 17 points and also pulled down 15 rebounds to lead the Vikings in building a 48-20 advantage on the boards.

Substitute John Rook with 14 points was the only Norrix player to hit double figures.

Norrix hit 20 of 68 shots for a 29 per cent average and added 10 of 17 at the free throw line where Niles converted 8 of 12. From the field, the Vikings sank 43 of 67.

The victory was the 17th straight in Big Six competition for Niles, the defending league champion. Norrix now is 1-5 in the conference and 3-10 for the year.

Niles also won the juniors varsity game, 69-50.

Officials: Frank Walker (South Bend) and Ken Niedlinger (Benton Harbor)

## Ten Games Are Victim Of Weather

The weatherman continued to play havoc with high school basketball in southwestern Michigan again Friday night.

Snow and high winds plus the threat of another big storm reported to be on the way forced postponement of 10 of 17 area games—including one that had already started.

Edwardsburg was leading Cassopolis 12-11 with 1:15 remaining in the first quarter of their Blossomland conference game at Edwardsburg when school officials halted the contest and sent everyone home because of heavy snow that hit the southernmost edge of Cass county.

Three of the postponements were automatic because of an A-Van conference rule that prohibits any school from playing a game if it did not conduct classes the same day.

Two of the postponed games have been scheduled for tonight — Buchanan at Coloma and Dowagiac at Portage Northern — while four others have been slated for next Tuesday, including Hartford at Bridgman, Covert at Hopkins, Vicksburg at Paw Paw and Bangor at Mattawan. No date has been set for the Lawton at Bloomingdale game, but Lawton coach Ron Mulvaney said it was likely it would be rescheduled for next Tuesday also.

Other new dates for games snowed out last night will find South Haven at Otsego on Feb. 10, Cassopolis at Edwardsburg on Feb. 16 and Lawrence at Martin on Feb. 23.

## Sixteen Sentenced In Berrien

### Penalties Imposed In District Court

Sixteen persons were sentenced on various charges Friday by judges in Berrien Fifth District court. The penalties were imposed after presentence investigation by court probation officers. Sentenced were:

Raymond B. Stovall, 19, of 343 Margaret avenue, Benton township; and Richard M. Nichols, 19, of 1128 Chicago avenue, Benton township, one year's probation and \$200 each for malicious destruction to a garage at 397 Linden avenue, Benton township, on June 17.

Ronald Kading, 24, of 1005 Court street, St. Joseph, a year's probation and \$100 for making a false report of a crime to St. Joseph police on April 18, 1970.

James Shaffer of 1924 1/2 Morrison avenue, St. Joseph, 11 months probation and \$500 for conspiracy to use marijuana last Oct. 18.

#### PETTY LARCENY

Leo Raymond Hill, Jr., of route 1, Coloma, \$50 for the petty larceny of license plates on May 2, 1970.

Carolyn Davis, 19, of 1070 Bishop, Benton Harbor, \$101 for entering without permission, at 1078 Bishop, Benton Harbor, on May 22, 1970.

Charles E. Zabrantanski, 17, and James Brant, 20, both of Benton Center road, Benton Harbor, one year's probation and \$121 each for the petty larceny of an outboard motor last June 30.

Lester James Young, 18, of 133 Plum, Benton Harbor, six months probation and \$5 for gambling in Benton township on Aug. 4, 1970.

Billy Williams, 33, of 465 South Fair, lot 20, Benton Harbor, one year's probation and \$150 for possessing a shotgun while intoxicated last Oct. 5.

Johnnie L. Heflin, 26, of 193 Lake street, Benton Harbor, one year's probation and \$80 for assault and battery on June 20, 1970.

#### PAROLE VIOLATION

David Eugene Carpenter, 24, to Hills road, Buchanan, 45 days for parole violation.

Ivory Joe Smith, 18, of Townline road, three days in jail, 180 days probation and \$100 for driving while his operator's license was revoked.

Roy Lee, 56, of Tabor road Eau Claire, three days in jail and \$90 for driving after his operator's license was revoked.

Barbara Stevens, of 2038 Territorial road, Benton Harbor, has been sentenced to one year's probation and assessed \$204 for embezzlement of less than \$100 as an employee of Fox's Jewelers, Benton Harbor, between Sept. 18 and Oct. 23, 1970. The original felony charge of embezzlement was dismissed on motion of the prosecutor.

Melvin Roy Walker, 43, of Michigan City, Ind., pleaded guilty to driving under the influence of intoxicants and was assessed \$151.

#### OTHER CASES

In other cases, five persons demanded preliminary examinations in arraignments Friday before Fifth District Judge Paul Pollard. They are:

Bruce Wayne Coburn, 23, of Red Arrow highway, Stevensville, charged with breaking and entering an auto. He was released on \$500 bond.

Thomas Nelson-Hunt of Jackson, charged with cashing a no-account check on Dec. 12 at the Benton township Holiday Inn. He was released on \$500 bond.

Edward W. Jones, 24, of 501 North Main street, Berrien Springs, charged with larceny, by conversion, of a 1968 Pontiac loaned him by Sink's Auto Sales, Inc. of Berrien Springs. Bond is \$2,500.

David J. Smith, 19, of 2560 Brice road, Benton township, charged with unlawfully driving away a Ford van belonging to Modern Plastics corporation last Dec. 6. Bond is \$500.

Terry Young Langford, 19, of 389 Brunson avenue, Benton Harbor, charged with carrying a concealed revolver on his person. Bond is \$500. Langford also was sentenced to three days in jail and assessed \$73 for driving while his operator's license was suspended.

#### LEGAL NOTICE

TO ALL QUALIFIED RESIDENTS OF THE VILLAGE OF SHOREHAM:

The final day for voter registration for the Annual Village election is Friday, February 5, 1971. On that day I will be at my home, 2185 North Hanley Road, until 8 P.M., to accept registrations those qualified residents not currently registered.

Janet M. Hiesley  
Shoreham Village Clerk  
Jan. 30, Feb. 2, 1971 H.P. Adv.

#### TO THE RESIDENTS OF THE VILLAGE OF SHOREHAM:

The Progressive Party of the Village of Shoreham will hold its Annual Caucus on Monday, February 8, 1971, at 7:00 P.M. at the Village Hall on Brown School Road. Candidates to be nominated are for the offices of: President, Clerk, Treasurer, and Assessor (each for 1-year terms) and three Trustees (each for 2-year terms).

Janet M. Hiesley  
Shoreham Village Clerk  
Jan. 30, Feb. 6, 1971 H.P. Adv.

**BOOKS FOR UPTON LIBRARY:** The Upton junior high school Student Council sponsored a donkey basketball game last week between the faculty and ninth graders (faculty won 26-20) and raised \$200 for books for the library. Gary McCurdy, media materials director for Upton school checks with Student Council president Melanie Taylor on what books should be purchased for the St. Joseph district school. (Staff photo)

**"MINE, ALL MINE":** One-year-old Danny Brunner of Arlington Heights, Ill., shows off amount of milk an infant can consume in a year—up to 90 gallons. In its first year, a baby will eat more than 140 times its own birth weight, according to Gerber statisticians, including milk and about 200 pounds of fruit, vegetables, meat and eggs.

**WASTE NOT WASTED:** Recycling may solve the national problem of solid waste disposal. The mountain of bales of scrap material, mostly corrugated boxes, above is about to enter reprocessing equipment at Union Camp Corporation's recycling mill in Monroe, Mich. This mill is reprocessing 85,000 tons of waste a year.

**PLOW IT YOURSELF:** Andover, Ohio, inventor Max Firestone, 62, stands next to the snowplow he designed to fasten on the front bumper of passenger cars in 10 seconds. The adjustable blade can clear six inches of snow from a 250-foot driveway in three minutes.

## Working at it gets the job done

Putting all the pieces together in the right combination can have very satisfying results. Whether it be a determined little youngster carefully stacking her building blocks, or a grown up with a problem to solve building a Want Ad with the right combination of words, the desired result can be achieved.

Every day hundreds of people call the NEWS-PALLADIUM & HERALD-PRESS Want Ad departments, each to place an ad composed of a group of carefully selected words which form a quick-acting, result-producing message, which will be printed and delivered to thousands of readers. Consider the many ways a Want Ad can help you solve a problem.

### WANT ADS WORK AT IT FOR YOU!

It is easy to place your ad. Just dial WA 5-0022 or YU 3-2531 and a pleasant, helpful Ad-Visor will assist you.
